

Fully automatic screed systems for
traditional cement screed and fluid screed

THE BMS TITAN

TITAN F FOR FLUID SCREED

TITAN Z FOR CEMENT SCREED

MADE IN GERMANY

www.bmsbaumaschinen.de

STRONG. FAST. CLEAN.

Fully automatic screed system for

STAINLESS

MIXING TANK
Easy to clean.

**CONTROL CABINET
WITH CONTROL PANEL**

Danfoss control
of the latest generation.

SCREW CONVEYORS

Optionally with screw
conveyor or conveyor belt.

HOSE REEL

Hose reel (hydraulic)
positioned in the rear.

**DOUBLE-WALLED
ALUMINIUM BODY**

Body made to measure,
modular system with
1, 2 or 3 chambers.

STAINLESS

STAINLESS

Mixing tank sealed
with rubber rings.

ALL MODELS AVAILABLE AS SEMI-TRAILERS AS WELL AS WITH 4-AXLE CHASSIS 8X4

fluid screed – TITAN F

HIGH-GRADE STANDARD EQUIPMENT

- + Electric sliding roof
- + Storage compartment for accessories
- + Telescopic access ladder
- + High-pressure cleaner
- + Additive pump
- + Electric water heater
- + Expansion flap with injection device
- + Large LED working light

ADDITIONAL FEATURES

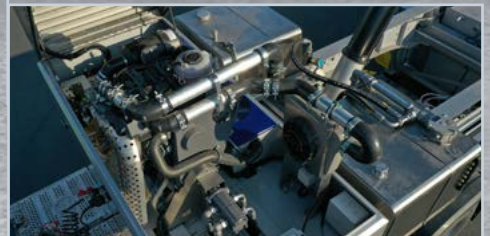

- + Many technical configurations and individual configurations possible.

HIGH-PRESSURE CLEANER

Included in the scope of services.

COMPACT MACHINE TECHNOLOGY

44.5 kW DEUTZ diesel engine of the latest generation, Stage V.

With telescopic access ladder.

IN THE FIGURE: TITAN F – TILTING SYSTEM FOR FLUID SCREED

POWERFUL. EFFICIENT. PRO

Fully automatic screed system for

NEW

EXCLUSIVELY FROM BMS.
INNOVATION DOUBLE VESSEL.
ENABLES CONTINUOUS CONVEYING.

CONTROL CABINET
WITH CONTROL PANEL

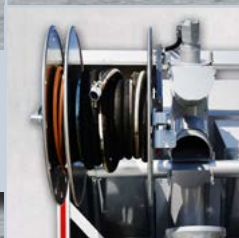

STAINLESS

Danfoss control
of the latest generation.

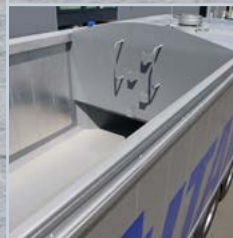

HOSE REEL

STAINLESS

Hose reel (hydraulic)
positioned in the rear.

DOUBLE-WALLED
ALUMINIUM BODY

Body made to
measure, modular
system with 1, 2 or
3 chambers..

STORAGE COMPARTMENT
FOR ACCESSORIES

STAINLESS

Full-length storage
compartment.

ALL MODELS AVAILABLE AS SEMI-TRAILERS AS WELL AS WITH 4-AXLE CHASSIS 8X4

ACTICAL.

Cement screed – TITAN Z

AS STANDARD

- + Electric sliding roof
- + Storage compartment for accessories
- + Telescopic access ladder
- + High-pressure cleaner
- + Additive pump
- + Electric water heater
- + Expansion flap with injection device
- + Large LED working light

ADDITIONAL FEATURES

- + Many technical configurations and individual configurations possible.

TWO TANKS

STAINLESS

Fuel and hydraulic oil tank. With telescopic access ladder.

COMPACT MACHINE TECHNOLOGY

44.5 kW DEUTZ Latest generation diesel engine, Stage V.

IN THE FIGURE: TITAN Z – TILTING SYSTEM FOR CEMENT SCREED

SUCCESSFUL AT ALL CONS

TITAN convinces with its performance

Tilting system for fluid screed.
TITAN F. Compact machine technology,
powerful performance.

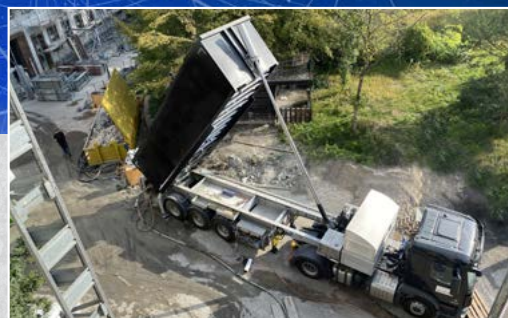

The TITAN is loaded
with sand on site.

Particularly user-friendly:
Hose reel positioned in the
rear for 120 m feed hose with
integrated water hose.

CONSTRUCTION SITES

ence

Working in pedestrian zones: TITAN enables fast set-up and dismantling times. The construction site remains clean.

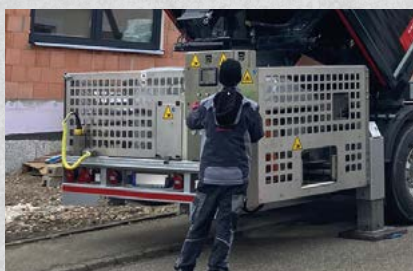

The construction site can be handled in a time- and material-saving manner, very effective and inexpensive.

High-quality equipment.

Thought-out down to the smallest detail.

Enlarged water tank with 250 l installed at the rear.

This TITAN Z is equipped with double vessel – enables continuous pumping.

High-pressure cleaner for Z and F series (standard).

STAINLESS

Large extendable drawer for Z series.

12 kVA generator for Z series.

Side drain for cement.

STAINLESS

Box for fibre roll at operator.

Load cells for Z and F series (standard).

Large LED working light for Z and F series (standard).

TITAN

USER-FRIENDLY. **TECHNICALLY PERFECT.**

The advantages at a glance

- + High-quality workmanship with many stainless steel components.
- + Sturdy design – quality made in Germany.
- + Computer-controlled fully automatic weighing, mixing and conveying with consistent quality.
- + Easy to use, proven in practice.
- + Cost savings due to reduced set-up times, material and personnel costs.
- + Great advertising appeal with individual painting and livery.
- + Investment pays off in a short time.

DIRECT. PERSONAL. RELIABLE.

We provide our customers with close-meshed support from instruction and commissioning through the initial phase to ongoing operation of the TITAN mobile screed unit. As long and as often as necessary and required.
